Science Teacher

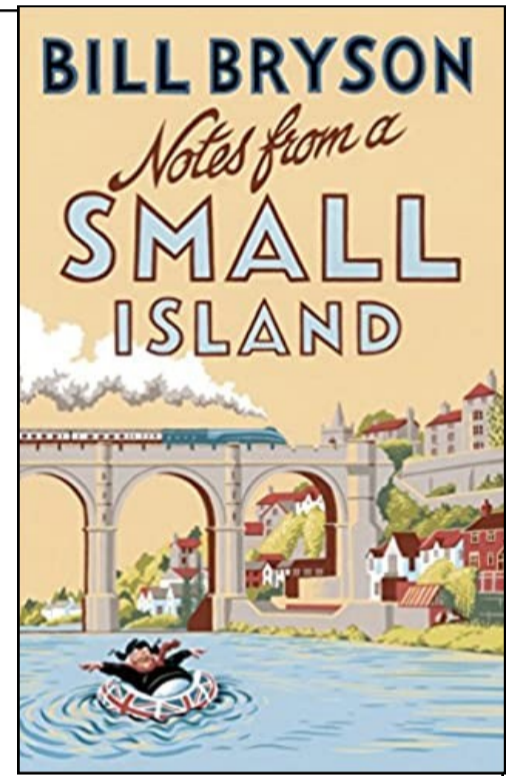

When do you do your reading?

When I am alone in the house and unlikely to be disturbed, and when I am on holiday.

What is your favourite book ?

Notes from a Small Island by Bill Bryson.

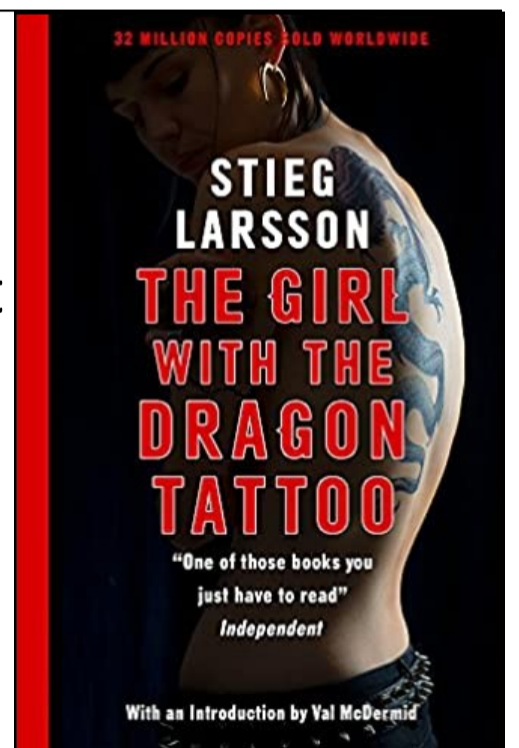

I had to think really hard as I like so many books. This one stuck in my mind as the only book that has ever made me laugh out loud.

What are you currently reading?

The Girl with the Dragon Tattoo by Steig Larsson.

Often, when I watch a film, I want to know more about the story. The book plugs the gaps. I get half the story from the film, and the full story from the book.

Any advice for young people re reading habits?

Try anything, if someone suggests a book to me, I always try it. It may be a book I would never have chosen, and sometimes they turn out to be the best.
